AN EXPLANATION

In the last issue of the Record, the article on Alma College Concludes with a list of Alma's needs, authorized by President Blaisdell. In this list the first refers to the need of a professor of Philosophy and English Bible. Some have interpreted this to mean that the venerable Dr. Clizbe is to be relieved of his duties in this department. Far different was the real meaning. This paragraph was rewritten from the President's last report to the Alma Trustees, in which he speaks of the need of a man to do a large part of the work in Bible study and its allied branches" and concludes with the statement, Of course Dr. Clizbe will continue to do a portion of this work as long as we are blessed with his presence. This explanation is inserted at the request of President Blaisdell who assumes all blame for the wording which led to the unfortunate interpretation which some have made. His statement is "Alma needs Dr. Clizbe's help and influence and power just as long as he will favor the institution with it."
